DON'T MISS OUR PRECONFERENCE

WEDNESDAY, SEPTEMBER 2, 2026 | 8:00 AM - 12:30 PM

**Grow Smart. Lead with Purpose. Win Financially.
Leveraging the KPIs That Matter**

Strong financial performance in an ASC isn't luck - it's operational leadership driven by data. This session equips administrators to turn financial insights into clear, actionable decisions that impact daily operations and long-term growth.

We'll focus on what matters most: understanding your ASC's financial performance from end to end and identifying the KPIs that truly drive efficiency, profitability, and sustainability. Learn how to connect the dots between your financial reports, revenue cycle, and operational execution.

Preconference Requires a Separate Registration Fee (Not included with General Conference).

Fueling Excellence: Elevate. Execute. Excel.

FEATURED SPEAKER

Michelle George

RN, MSN, CASC

*Independent ASC
Advisor and Consultant*

What does it take to move from good to exceptional in ambulatory surgery? This presentation explores a disciplined, results-driven approach to achieving excellence in the ambulatory surgery setting.

Elevate focuses on raising standards, strengthening clinical quality, reinforcing a culture of safety, and aligning teams around a shared vision for exceptional patient care. Execute emphasizes consistency in action, leveraging evidence-based practices, operational efficiency, and accountability to reliably deliver high-performance outcomes. Excel represents the result, sustained improvement in patient outcomes, team engagement, and organizational success.

Together, these pillars create a practical framework for transforming daily performance into measurable excellence, ensuring that every patient experience, every procedure, and every team interaction reflects the highest standards of care.

Emergency Management, Physical Environment, and Life Safety in ASCs

Richard Parker
ACHC

How confident are you that your ASC is meeting today's life safety standards? This session will cover emergency management, the physical environment, and life safety standards that are often cited in ASCs.

Attendees will receive practical insights into how surveyors assess these requirements, identify common challenges faced by organizations, and learn how to align their policies, documentation, and operations with regulatory standards for survey readiness.

Position Your ASC for Accreditation Success

David Shapiro
MD, LHRM, CHC, CHCQM, CPHRM
AAAHC

Accelerate your ASC's survey readiness with a focus on the current clinical Medicare conditions for coverage.

The presentation will highlight commonly misunderstood CfC and share actionable strategies to strengthen compliance, fueling your ability to confidently prepare your ASC for survey success and sustain high performance.

Checked Flag Finish: What the Experts Want You to Know

Survey preparation can be stressful – especially for teams navigating the process for the first time. Attendees will receive expert guidance on preventing common deficiencies and hear directly from a panel of accreditation experts representing AAAHC, Joint Commission, Quad A, DNV, and ACHC.

This session serves as a tune-up for your ASC's survey readiness, addressing the most common areas of deficiency.
